Our approach to supporting clients' projects is fueled by our experiences in outpatient service-line development and operations, particularly joint ventures. Our custom-built, multidisciplinary teams provide precisely the expertise you need and nothing you don't. As an owner-operated firm, Avanza accommodates the unique needs of ASCs, hospitals and academic medical centers with customized engagements, flexible project scopes, variable engagement lengths and no equity requirement. Strategic Planning

"We didn't want to engage a traditional hospital consultant who was still learning how outpatient services should be delivered. We wanted someone with a track record in the outpatient space that would bring a different and valuable perspective to our project."

— David Dibner, Senior Vice President, NYU Langone Medical Center
